

# ICD-10 For ICD-9 Coders

Built on over 20 years of experience in training high-quality healthcare professionals, the ICD-10 for ICD-9 Coders program helps you quickly gain the knowledge and skills you will need to be successful with the ICD-10 code set and improve your career opportunities.

## Who Should Attend

This course is designed for new ICD-9 medical coders. It is not intended for those who have never completed medical coding training or experienced medical coders.

## Skill Sets

- Prepare you for the new ICD-10 content on the CCA (offered by AHIMA and to be released April 1, 2014) and CPC (offered by AAPC and to be release January 1, 2015) national certification exams
- Train you on ICD-10 specific biomedical science concepts, as well as comprehensive code set training so you can effectively use the new, more specific ICD-10 codes
- Guide you through hands-on exercises so you have realworld experience working with the new code set

## Requirements

Must have access to a computer, Internet (high-speed Internet access is recommended) and an active e-mail account. In addition, you may require Adobe Reader, Adobe Flash Player and Windows Media or QuickTime Player on your computer.

## Certificate Completion

Prepare you for the new ICD-10 content on the CCA (offered by AHIMA and to be released April 1, 2014) and CPC (offered by AAPC and to be release January 1, 2015) national certification exams.
