

# CPR Certification

Whether you're a Professional Clear Credential Candidate, an office worker, or a parent, this CPR course will provide you with the skills to save a life. This training is designed to meet the requirements of AB-1136, delivered under the guidelines of the American Heart Association orientation course.

## Topics Include:

- CPR skills for adults, children and infants
- Childhood injury prevention
- Rescue breathing and foreign-body airway obstruction
- Adult, child and infant Chain of Survival
- Sudden cardiac arrest
- Healthy heart concepts and minimizing risk factors
- Recognition of heart attack symptoms for purposes of intervention before CPR is necessary once you are funded

## How to Earn the Certificate

You will receive a CPR certification card after successfully completing the course. This CPR course is also open to anyone interested in becoming certified.
