

Certified Green Supply Chain Professional Certificate

Professional and Continuing Education

The Certified Green Supply Chain Professional Online Certificate Program will give you the specialized knowledge to enable a company to achieve its environmental sustainability goals through global sourcing, materials management, procurement and buying, transportation and logistics, and new product development.

Who Should Attend

- Professionals working in or preparing for leadership roles tasked to support the sustainable business practices and goals of their organization
- Professionals who need to create collaborative partnerships in order to improve sustainable business practices throughout the supply chain
- Sustainability consultants who must analyze green challenges for their clients and develop supply chain strategies
- Managers, directors or vice presidents whose departments are within the operations or supply chain groups and have responsibility for implementing green supply chain practices
- Professionals who need to develop collaborative supplier partnerships with Original Equipment Manufacturer organizations they support as a Tier I or II supplier

Requirements

Must have access to a computer, Internet (high-speed Internet access is recommended) and an active e-mail account. In addition, you'll need to have Adobe Reader, Flash plug-in and a QuickTime plug-in on your computer.

Certificate Completion

Upon successful completion of the program, you will be eligible to take our certificate examination. Once you have passed, you have earned the program credentials and are entitled to use the SCSP or GSCP designation after your name.

Skill Sets

- Establish and maintain a green procurement strategy
- Identify corporate social responsibility strategies to meet organizational needs
- Develop and use Green Supply Practices (GSP)
- Select and use a variety of environmental accounting methods effectively
- Improve operational sustainability by applying green strategies to the logistics and supply chain
- Align supply chain operations and business strategies to meet sustainability objectives

Training Time

60 hours, 13 months

Delivery Format

- The entire program is offered online
- Start anytime during the quarter
- Complete it from the convenience of your home and on your schedule
- Progress at the pace that matches your learning style
